An Invitation To AllAGRICULTURAL ENGINEERS
AGRICULTURAL ENGINEERING WIVES
FRIENDS and ASSOCIATES of AGRICULTURAL ENGINEERS

That's about as broad a heading as I can write. Very likely you know of the Central Illinois Section meeting, American Society of Agricultural Engineers, to be held in the Agricultural Engineering Building here on campus Saturday, November 2, beginning at 9:00 a.m. We would like so much to have you with us.

A most interesting program has been arranged and if you have not received a copy let us know. Also, if you wish, we would be glad to provide assistance in local arrangements including lodging and/or football tickets to see the revitalized Illini play Purdue.

On November 1 and 2 the College of Engineering Alumni Committee has arranged a most interesting program about the theme "A Review of Engineering Research and Developing Relationships with Industry." Copies of the program are available upon request from you.

Do mark November 1 and 2 on your calendar and plan to be on campus. A most cordial welcome awaits you.

Frank B. Lanham
Head of Department

FBL:jv

P.S. Saturday noon luncheon will be available in the Agricultural Engineering Building. If you want your name in the pot, let us know as soon as possible.
